OmeCare
Unlock your genetic potential
OmePsychiatricMeds
Genetic Test for Mental Health Medication Efficacy
NOURISH | WELLNESS | VITALITY
DNA Collection Kit

What's Included:

- Saliva DNA Collection kit with pre-paid return shipping direct to OmeCare Lab
- Secure provider portal to order, access and manage reporting (HIPAA COMPLIANT)
- Every report order is prior-approved by a Physician/MD, and every test report result is reviewed by an MD before delivery to patient.
- A comprehensive patient's personal genetic report with an analysis of your patient's likely response to 51 commonly prescribed psychiatric medications indicating:
 - ∞ Preferential use
 - ∞ Use as directed
 - ∞ May have significant limitations
 - ∞ May cause serious adverse events

Product Benefits

- Save time and eliminate the trial and error guesswork by understanding genetic sensitivities to various mental health medications
- Easily interpreted and clinically actionable reports
- Makes your patient visits more meaningful with genetic insights
